

SAN FRANCISCO BAY AREA CHAPTER MENTORING PROGRAM

Looking for Protégés!

The ASIS International San Francisco Bay Area Chapter **continues** the mentoring program! The ASIS International “Mentoring Security Leaders” Program is a career development methodology whereby ASIS members (Protégés) are matched with experienced ASIS colleagues (Mentors) for guidance and professional advice. Within this program the Protégé will gain knowledge and experience in dealing with today's security management challenges.

The program is designed to promote long-term leadership and career development through a one-on-one Mentor-Protégé relationship, as the Mentors share their experiences and advice on career advancement, professional visibility, networking and overcoming barriers to career success. It is an excellent way to get invaluable, confidential executive coaching at no cost as well as career advice along with essential skills for the business world!
